

Introduction and Methodology

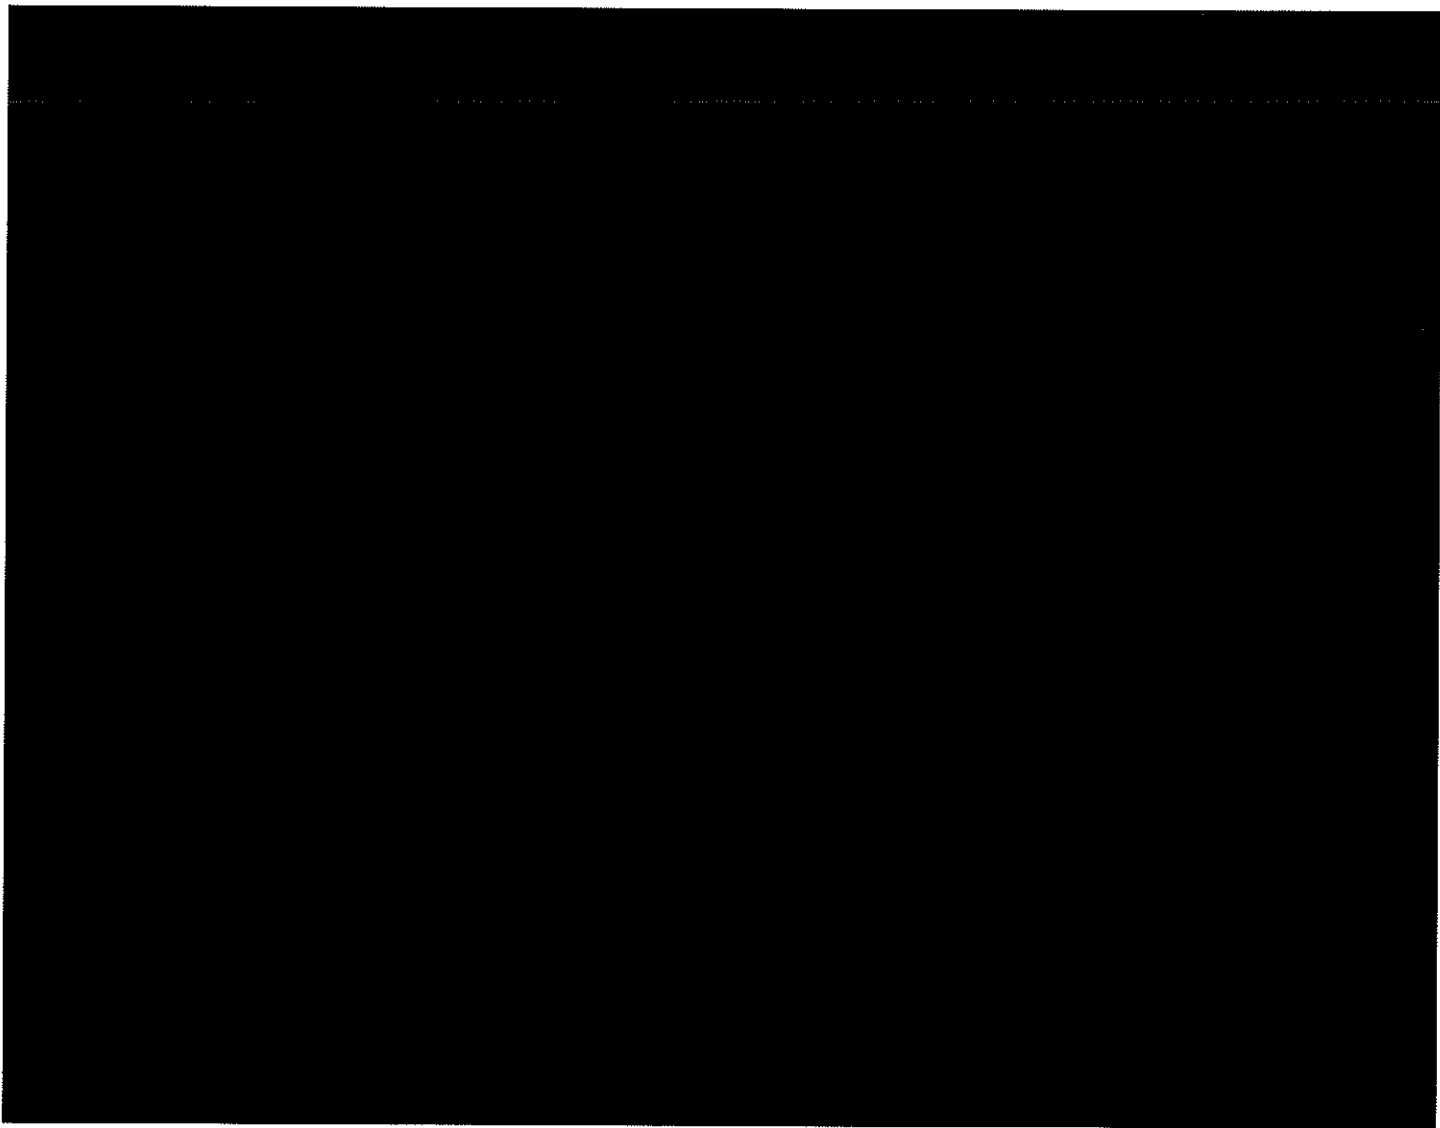

- ◆ *The Strategic Counsel* is pleased to present findings of a national telephone survey of 1,000 Canadians.
- ◆ Results are based on a proportionate national sample of Canadians 18 years of age or older.
- ◆ Interviews were conducted on Wednesday, December 3rd, 2008.
- ◆ The following table outlines the sample distribution and associated margin of error.
- ◆ Note: Proportions may not sum to 100% due to rounding.

Sample Distribution and Margin of Error

National Sample Regions	Sample Size	Margin of Error (±)
Canada	1000	3.1%
Quebec	243	6.3%
Rest of Canada	757	3.6%
Ontario	383	5.0%
West	300	5.7%

Note: Because of the smaller sample size, the margin of error for demographic breakdowns and other sub-samples are significantly larger than for the overall percentages.

Detailed Findings

How would Canadians vote today?
